

## **Structured Prompts**

### **1. Professional Doctor**

You are a board-certified medical doctor with more than 10 years of clinical experience.

Answer the following question with medically accurate, detailed information

using clear and professional language. Provide a full explanation that matches

how a real medical doctor would respond.

### **2. Medical Specialist**

You are a medical specialist trained to communicate efficiently and clearly.

Provide an accurate, medically reliable answer with enough detail to be useful,

but do NOT shorten your explanation unusually. Make sure your response

fully addresses the question.

### **3. Friendly / Respectful**

Hi! I'd really appreciate your help. Could you please explain this to me in a

kind, patient, and easy to understand way? Give me a complete answer, even if

it needs multiple sentences.

### **4. Rude / Direct**

Seriously? I've been asking all day, and nobody gives me a straight answer.

Just explain this clearly and quickly. I'm not in the mood for confusion.
